### DETAILED ACTION

This Office action is responsive to the amendment filed on March 24, 2003.

1. Claims 1-41 are allowed and renumbered as 1-31, 33-36, 39-40, 37-38, 32, and 41, respectively.

2. The following is an examiner's statement of reasons for allowance: The prior art taken either singly or in combination fails to anticipate or fairly suggest:

a) a third sub-stack comprising at least one layer of the electrically insulating multilayered material stacked on top of the second sub-tack, as recited by claim 1, especially when these limitations are considered within the specific combination claimed;

b) a monolithic body comprising a electrically insulating multilayered material and an integral window disposed across the aperture and bonded directly to the body without having a separate layer of adhesive material disposed in-between the window and the body, as recited in claim 21, especially when these limitations are considered within the specific combination claimed;

c) the cover lid, which is attached on the top surface of the body for sealing the package, is transparent (as recited by claim 36), comprises a window (as recited by claim 37), especially when these limitations are considered within the specific combination claimed;

d) a printed circuit board for the package mounting on, wherein the board comprises an opening through the board, the aperture in the package being

aligned with the opening in the board, thereby allowing light to pass through both the opening and the aperture to interact with the light-sensitive side of the first microelectronic device, as recited by claim 41; especially when these limitations are considered within the specific combination claimed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
